

1. The first group of respondents (10%) was asked to identify the most important factors influencing their decision to purchase a new car. The results showed that the most important factors were the car's performance, reliability, and safety. 2. The second group of respondents (20%) was asked to identify the most important factors influencing their decision to purchase a new car. The results showed that the most important factors were the car's performance, reliability, and safety. 3. The third group of respondents (30%) was asked to identify the most important factors influencing their decision to purchase a new car. The results showed that the most important factors were the car's performance, reliability, and safety. 4. The fourth group of respondents (40%) was asked to identify the most important factors influencing their decision to purchase a new car. The results showed that the most important factors were the car's performance, reliability, and safety. 5. The fifth group of respondents (50%) was asked to identify the most important factors influencing their decision to purchase a new car. The results showed that the most important factors were the car's performance, reliability, and safety.
